## Summary Sheet

Name of Department: Civil Engineering

Action Taken Report on Feedback

Academic Year: - 2023-24   **Semester: Even**

Sr. No.	Stakeholder	Feedback	Action Taken
1.	Faculty	Many faculties have recommended the inclusion of a software-based syllabus to better equip students with essential technical skills.	We have prepared and shared this suggestion with the Board of Studies (BoS) Members of the Department of Civil Engineering at DBATU, Lonere, recommending the inclusion of a software-based syllabus
2.	Students	Many students have suggested organizing industrial or field visits as part of the curriculum. These visits will provide valuable hands-on experience, offering students the opportunity to observe real-world applications of the concepts learned in class.	Our department has successfully arranged several industrial visits for students, providing them with valuable practical exposure. These visits include tours of diverse industries such as steel manufacturing plants, airports, water treatment facilities, and construction sites.
3.	Employer	Many employers have suggested that students be provided with training in new materials knowledge, soft skills, and advanced techniques.	Our department has actively provided students with valuable knowledge and training to enhance their skills. This includes visits to industry events such as the Dalan Expo, hands-on AutoCAD software training, aptitude development sessions, and expert talks from professionals in the field.
4.	Alumni	Many alumni have suggested the inclusion of soft skills training and competitive exam awareness sessions, as well as the arrangement of industrial or field visits.	Our department has successfully provided a variety of training and learning opportunities for students to enhance their skills and industry knowledge. These include hands-on AutoCAD and 3D Max software training, aptitude development sessions, expert talks from industry professionals, as well as field visits to key locations such as water treatment plants, dams, and construction sites.

Summary Sheet

Name of Department: Computer Science & Engineering

Action Taken Report on Feedback

Academic Year: 2023-24   Semester: Even

Sr no	Stakeholder	Feedback	Action Taken
1	Student	GATE training required	Arranged Expert Lecture for Gate Preparation
		Required maximum number of training for soft skill and personality development	Arranged Expert Lecturers on Soft Skill Development.
		Required programming language hands on training as per recent requirements in industries	Arranged Different training programs
		There should be weekly at least two lectures on certain programming language.	Scheduled programming club Activities.
2	Alumni	Offer resources or programs for ongoing education and skill development to keep alumni connected and updated on emerging technologies	Webinars, Workshops, and Seminars are arranged.
		Provide robust support for internships and programs, helping students gain practical experience and explore different career paths	Provided internship by Strengthen Industry Partnerships.
3	Employer	Enhance students' self-assurance during job interviews	Arranged Mock Interviews and Interview Practice also Arranged Interview Preparation Workshops and Resources.
		Ensure the curriculum aligns with the latest trends and advancements in the tech industry	Done Collaboration with Industry Partners.
4	Faculty	The curriculum is well aligned with program goals and offers through to coverage essential subject only need to increase the lab sessions.	Increased Access to Virtual Labs and Resources for students.
		Provide more hands on learning opportunities such as virtual lab, case study or real world project.	Arranged Industry-Sponsored certification courses as well as training's.

Summary Sheet

Name of Department: Electronics and Telecommunication Engineering

Action Taken Report on Feedback

Academic Year: 2023-24   **Semester: Even**

Sr. No.	Stakeholder	Feedback	Action Taken
1	Faculty	Add simulation tools related to lab as course.	Python lab was conducted for programming. Designed assignments & projects requiring students to use available tools for real-world problem solving.
2	Student	Required programming language hands on training as per recent requirements in industries, Delivery of lecture improvements use video, slides, readings & live sessions to cater to diverse learning styles	Add-on course on software tools is planned. Project based learning includes like mini project relevant to industry needs.
3	Employer	Ensure the curriculum aligns with the latest trends and advancements in the tech industry	Students were encouraged to enroll in NPTEL course. Students were encouraged to complete certifications and participate in training internships to enhance their practical knowledge, gain industry-relevant skills, and improve their employability in competitive job markets.
4	Alumni	Need Industry relevant courses & latest Technology	Workshop & expert lectures were planned accordingly. Seminar/ workshop is organized.
