Report on Aptitude Training

Organized by: Ashokrao Mane Group of Institutions, Vathar

Training Conducted by: Apt Tech

Resource Person: Mr.Sannir Kittur

Participants: 83 B-Tech Electrical Students

Duration: 31/07/2023 to 17/08/2023

Introduction

The Department of Electrical Engineering at Ashokrao Mane Group of Institutions, Vathar, organized a focused Aptitude Training program from 31st July 2023 to 17th August 2023. The program, conducted in collaboration with AptTech, featured Mr.SannirKittur as the resource person. The training aimed to enhance the aptitude skills of 83 B-Tech EE students, preparing them for competitive exams, campus placements, and career advancement opportunities.

Objectives

1. To develop logical reasoning, quantitative aptitude, and verbal ability among students.
2. To familiarize students with various aptitude-related problem-solving techniques.
3. To prepare students for placement tests and competitive examinations.
4. To build confidence in tackling aptitude-based challenges effectively.

This detailed schedule ensured a comprehensive understanding of aptitude topics, providing a balance of theoretical and practical training.

Outcomes

1. Students developed a strong foundation in aptitude topics essential for placements.
2. Improved their ability to analyze and solve problems quickly and accurately.
3. Built confidence in appearing for aptitude tests during placement drives and exams.
4. Gained practical exposure through mock tests and interactive problem-solving sessions.

Feedback

The training was well-received by the participants, who appreciated the structured approach and practical focus of the sessions. The resource person, **Mr.SannirKittur**, was lauded for

his in-depth knowledge and interactive teaching style. Students highlighted the value of mock tests and the real-world relevance of the training.

Conclusion

The Aptitude Training program was a resounding success, equipping **83 B-Tech EE students** with the necessary skills and confidence to excel in competitive exams and placement drives. The training addressed the core areas of aptitude while fostering a positive and interactive learning environment.

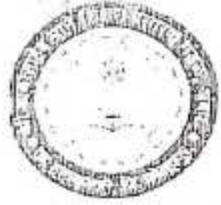

Acknowledgment

The Department of Electrical Engineering expresses its heartfelt gratitude to the management of Ashokrao Mane Group of Institutions for their support in organizing this program. Special thanks are extended to AptTech and **Mr.SannirKittur** for their contributions to the program's success.

Report on 'C' and 'C++' Programming Language Training

Organized by: Ashokrao Mane Group of Institutions, Vathar

Training Conducted by: AptTech

Resource Person: Mr.Chirag Raul

Participants: 80 Third-Year Electrical Students

Duration: 07/08/2023 to 23/08/2023

Introduction

The Department of Electrical Engineering at Ashokrao Mane Group of Institutions, Vathar, successfully organized a training program on 'C' and 'C++' programming languages from **7th August 2023 to 23rd August 2023**. Conducted in collaboration with AptTech, the training was led by Mr.Chirag Raul, an experienced professional in programming and software development. A total of **80 students** from the Third-Year Electrical department participated enthusiastically, benefiting from the theoretical and practical aspects of the program.

Objectives

1. To provide students with a strong foundation in 'C' and 'C++' programming.
2. To improve students' problem-solving and algorithmic skills.
3. To familiarize students with object-oriented programming concepts.
4. To prepare students for technical interviews and industry practices.

Program Details

- **Duration:** 07/08/2023 to 23/08/2023
- **Mode:** Offline
- **Venue:** Computer Lab, Ashokrao Mane Group of Institutions

Session Highlights

1. **Introduction to 'C' Programming:**
 - Overview of procedural programming.
 - Syntax, variables, operators, and control structures.

- o Functions and modular programming techniques.
- 2. **Advanced Concepts in 'C':**
 - o Arrays, pointers, and memory allocation.
 - o File handling and best practices in C programming.
- 3. **Introduction to 'C++':**
 - o Basics of object-oriented programming (OOP).
 - o Key concepts: classes, objects, inheritance, and polymorphism.
 - o Understanding constructors, destructors, and operator overloading.
- 4. **Hands-on Coding Practice:**
 - o Real-world problem-solving tasks using 'C' and 'C++'.
 - o Debugging and optimizing code for better performance.
- 5. **Career Guidance:**
 - o Applications of 'C' and 'C++' in various domains.
 - o Tips for cracking technical interviews and coding challenges.

Outcomes

- The **80 Students** who attended the program developed a solid understanding of 'C' and 'C++'.
- The hands-on exercises helped them enhance their programming skills and problem-solving abilities.
- Students were better prepared to handle technical interviews and contribute to software development projects.

Report on Virtual Instrumentation

Objective

Virtual Instrumentation (VI) aims to integrate software and hardware systems to develop customizable and cost-effective solutions for measurement and automation. It provides engineers and scientists the flexibility to design instruments tailored to specific applications, enabling efficient data acquisition, processing, and analysis.

Content

Virtual Instrumentation is the practice of replacing traditional hardware instruments with software-defined tools that perform the same functions. The key components include:

1. **Software Platform:** Tools like LabVIEW, MATLAB, or Python enable creating graphical or code-based environments for measurement and control.
2. **Hardware Interfaces:** These include Data Acquisition (DAQ) devices, sensors, and actuators that interact with the physical environment.
3. **Customizability:** Virtual instruments are software-driven, allowing users to customize functionalities, interfaces, and workflows to suit specific requirements.
4. **Applications:** VI finds use in fields like healthcare, automotive testing, environmental monitoring, and industrial automation.

Advantages of virtual instrumentation include reduced costs, increased flexibility, real-time data analysis, and enhanced scalability. It eliminates the need for physical hardware upgrades, as most functionalities are implemented in software.

Outcome

The implementation of Virtual Instrumentation results in:

1. **Enhanced Productivity:** Engineers and researchers can design and test systems more efficiently.
2. **Cost Savings:** Reusable software and modular hardware reduce the overall cost of instrumentation systems.
3. **Improved Precision and Accuracy:** Real-time feedback and advanced data analytics enhance system reliability.

4. **Scalability:** Systems can be upgraded or modified to meet evolving requirements without significant hardware changes.

Virtual Instrumentation continues to revolutionize industries by bridging the gap between advanced technologies and practical measurement needs, making it a cornerstone in modern instrumentation systems.

DEPARTMENT OF ELECTRICAL ENGINEERING**

DATE: 02-12-2023

NOTICE

All the Final Year Students of Electrical Engineering are hereby informed that, we are pleased to announce the initiation of a Curriculum Enrichment Program focused on Virtual Instrumentation (LabVIEW) Training from 4th December 2023 to 8th December 2023. This program aims to equip final year students with valuable skills and knowledge in LabVIEW, a widely used system design platform for engineers and scientists.

Note: All the Participants should kindly gather in SL-10 Lab at Sharp 9 am

Program Timing :- 9:00am to 4:30pm .

Program Schedule:

Date	Time	Session Topic	Details/Description
4th Dec 2023	9:00 AM - 10:30 AM	Introduction to Virtual Instrumentation	Overview of Virtual Instrumentation and its applications in modern industries.
	10:45 AM - 12:15 PM	LabVIEW Basics	Introduction to LabVIEW software, its interface, and key features.
	12:15 PM - 1:15 PM	Lunch Break	
	1:15 PM - 2:45 PM	Virtual Instrumentation Architecture	Understanding hardware and software integration in virtual instrumentation systems.
	3:00 PM - 4:30 PM	Hands-On Session: Building Simple VI in LabVIEW	Practical session on creating Virtual Instruments using LabVIEW.
5th Dec 2023	9:00 AM - 10:30 AM	Data Acquisition and Signal Processing	Techniques for data acquisition and processing in virtual instrumentation.
	10:45 AM - 12:15 PM	Sensors and Actuators in VI	Integration of sensors and actuators with virtual instrumentation systems.
	12:15 PM - 1:15 PM	Lunch Break	
	1:15 PM - 2:45 PM	Measurement Systems and Control	Overview of measurement systems and their control using virtual instruments.
	3:00 PM - 4:30 PM	Hands-On Session: Data Logging and Analysis	Practical session on setting up data logging and analysis in LabVIEW.
6th Dec 2023	9:00 AM - 10:30 AM	Advanced Virtual Instrumentation Techniques	Advanced features of LabVIEW for complex measurements and systems.
	10:45 AM - 12:15 PM	Networked Measurement Systems	Understanding the design and implementation of networked virtual instrumentation systems.
	12:15 PM - 1:15 PM	Lunch Break	
	1:15 PM - 2:45 PM	Integration with External Hardware	Connecting and interfacing virtual instruments with external hardware.
	3:00 PM - 4:30 PM	Hands-On Session: Networked VI Development	Practical session on creating networked virtual instruments.

Date	Time	Session Topic	Details/Description
7th Dec 2023	9:00 AM - 10:30 AM	Data Visualization and User Interfaces	Learning how to create effective visual interfaces in LabVIEW.
	10:45 AM - 12:15 PM	Real-Time Systems in VI	Introduction to real-time systems and how they can be implemented with virtual instrumentation.
	12:15 PM - 1:15 PM	Lunch Break	
	1:15 PM - 2:45 PM	Simulation and Modeling in Virtual Instrumentation	Using virtual instrumentation for simulations and modeling applications.
	3:00 PM - 4:30 PM	Hands-On Session: Real-Time VI Development	Practical session on developing real-time systems in LabVIEW.
8th Dec 2023	9:00 AM - 10:30 AM	LabVIEW Programming for Advanced Applications	Advanced programming techniques in LabVIEW for complex virtual instrumentation applications.
	10:45 AM - 12:15 PM	Project Development: Design and Testing	Designing and testing a virtual instrument for a specific application.
	12:15 PM - 1:15 PM	Lunch Break	
	1:15 PM - 2:45 PM	Project Presentations and Discussion	Participants present their projects followed by discussion and feedback.
	3:00 PM - 4:30 PM	Closing Remarks and Certification	Summary of the program, feedback session, and distribution of certificates.

Student Development Program on Virtual Instrumentation and Industry 4.0

In Association with IET Student Chapter and Institute Innovation Council

Date: April 4th, 2024 to April 6th, 2024

Coordinators: Dr. C. R. Dongarsane, Assistant Professor, Department of Electronics & Telecommunication Engineering, AMGOI, Vathar

Prof. A. V. Kumbhar, Assistant Professor, Department of Electrical Engineering, AMGOI, Vathar

Guest Speaker: Mr. Amit Amrutkar, Technical Consultant, Kimaya Automation, Pune

Introduction: The Student Development Program on Virtual Instrumentation and Industry 4.0, led by Dr. C. R. Dongarsane and Prof. A. V. Kumbhar, in collaboration with the IET Student Chapter and the Institute Innovation Council, aimed to equip students of Electrical Engineering and Electronics & Telecommunication Engineering with the knowledge and skills required to excel in the era of Industry 4.0.

Key Activities:

- 1. Workshops and Training Sessions:** Comprehensive workshops were conducted to introduce students to virtual instrumentation tools and Industry 4.0 technologies. Participants learned to utilize software such as LabVIEW for data acquisition and analysis, as well as explore the principles of cyber-physical systems and IoT integration.
- 2. Guest Lecture by Mr. Amit Amrutkar:** Mr. Amit Amrutkar, a distinguished technical consultant from Kimaya Automation, Pune, delivered an enlightening lecture on the practical applications of virtual instrumentation and Industry 4.0 in the industrial sector. His insights provided invaluable perspectives on real-world challenges and opportunities in the field.
- 3. Hands-on Projects:** Students engaged in hands-on projects to apply their theoretical knowledge in practical scenarios. Under the guidance of faculty mentors, they designed and implemented virtual instrumentation systems for various applications, including process control, monitoring, and automation.

E-mail: hodele@amgoi.edu.in, Website: www.amgoi.org

4. **Industry Visits:** Visits to prominent industries offered students the opportunity to witness cutting-edge technologies in action. Interactions with industry experts facilitated a deeper understanding of Industry 4.0 practices and encouraged students to explore career opportunities in related domains.

Outcomes:

1. **Enhanced Skillset:** Participants developed proficiency in virtual instrumentation tools and gained insights into the integration of Industry 4.0 technologies.
2. **Industry Relevance:** Exposure to industry practices and interactions with experts enriched students' understanding of real-world applications, enhancing their employability prospects.
3. **Networking Opportunities:** The program provided a platform for students to network with peers, faculty members, and industry professionals, fostering collaborations and knowledge exchange.
4. **Inspiration for Innovation:** Through hands-on projects and interactions with industry leaders, students were inspired to innovate and contribute to the advancement of technology in their respective fields.

Conclusion: The Student Development Program on Virtual Instrumentation and Industry 4.0, facilitated by Dr. C. R. Dongarsane and Prof. A. V. Kumbhar, in collaboration with the IET Student Chapter and the Institute Innovation Council, proved to be a transformative experience for students of Electrical Engineering and Electronics & Telecommunication Engineering. By bridging the gap between academia and industry and fostering a culture of innovation, the program empowered students to embrace the opportunities presented by the fourth industrial revolution and emerge as future leaders in their field.
